

ACT BRANCH AUSTRALIAN GUIDANCE AND COUNSELLING ASSOCIATION

WORKSHOP

Vicarious and Organisational Trauma: Exploring the impact of working with traumatised children and their families on workers and the systems within which they practice

Focus areas:

- Develop an understanding of the nature of vicarious trauma
- Identifying the impact on individuals and organisations
- Practical resource plans to safeguard ourselves as practitioners
- Practical strategies that can be addressed at an organisational level through meetings, supervision and informal ways of supporting each other

PRESENTER

Jeanette Miller
Australian Childhood Foundation

Jeanette has a background in teaching and primary health care, with additional qualifications in Infant Mental Health. She has extensive experience in the education and health sectors as a lecturer, teacher, trainer, parent educator and practitioner. Jeanette has a special interest in prevention and early intervention to improve outcomes for children, and especially enjoys working with parents and carers of children in the first years of life. Jeanette is a Senior Training Consultant in the Training and Professional Development Program.
